

Polyprene® Repairs

Universal Repair Cement

Voted TOP 10 ROOFING PRODUCT OF THE YEAR!

“Best all around repair product I've ever used. I've tried them all, and it's the only one I use.”

- D. Johnson

“Polyprene is the most reliable repair compound anywhere.”

- C. Hudgins

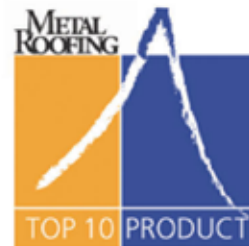

“Polyprene is the best material in the world. You can use it on anything. I love that stuff!”

- T. Marshall

Polyprene® may be the most recognized universal repair product on earth because it comes ready to use, weathers all climates*, and can elongate 850% for increased dependability where you need it most. Use on metal, EPDM, BUR - most any roof type. Polyprene makes a strong, flexible bond that works fast and lasts.

Now also available in 3 gallon pails - the easiest product to tote.

TOPPS PRODUCTS is one of the Top 10 Metal Roofing Products of 2009

Dear Arlan,

Congratulations from **METAL ROOFING MAGAZINE!** TOPPS PRODUCTS attracted the attention of our readers as one of the Top 10 Metal Roofing Products in 2009. The Top 10 List is chosen every year after analyzing reader response reports from each issue of **METAL ROOFING MAGAZINE**. Specifically, it was the information in the **June/July 2009** issue that caught the readers' eyes.

Congratulations again on winning! We look forward to helping you announce your new products into the future in **METAL ROOFING MAGAZINE**.

Sincerely,

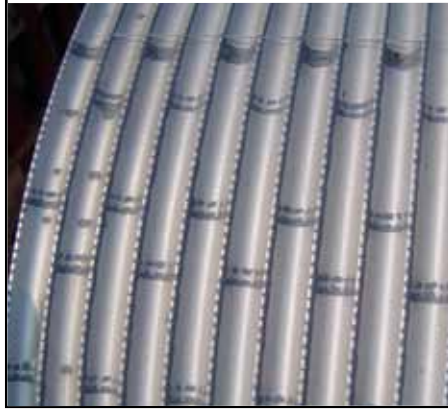

Jim Austin
Senior Editor

* Polyprene is currently in use from Greenland in the north to the Antarctic in the south and on all continents in between.

Embedding PolyCore™ in Polyprene for added strength.
