

The Unique Waterproofing and Gasketing Solution

DOUBLEBOND™
DOUBLE SIDED MEMBRANE

DoubleBond™ is a non-reinforced, pressure sensitive, double-sided waterproofing membrane. Both sides of the membrane consist of a specialty rubberized asphalt adhesive system.

DoubleBond self-seals around punctures such as nails and staples to provide a watertight seal. It aggressively bonds to most construction surfaces.

DoubleBond Features

- Quick and easy self-stick application direct to the substrate
- Designed for applications that require a two-sided waterproofing membrane
- Ideal for gasketing applications
- Each surface of the membrane is protected by an easy-to-remove release liner
- Install in temperatures of 45°F or higher
- Easy to handle and install
- Packaged in a durable cardboard carton
- 5-year limited warranty
- Made in the USA

DoubleBond is ideal for use with skylights, as well as many other applications requiring a two-sided adhesive membrane.

Product	Roll Sizes	Thickness	Rolls per Carton	Cartons per Pallet	Carton Weight	Warranty
DoubleBond™	4", 6" x 50'	35 Mils	4" (9), 6" (6)	30 Cartons	48 lbs.	5-Year
